MINDEN SEWERS AND RESERVOIR PROJECTS OFF TO GOOD START

Work on Minden's long-awaited and badly needed sanitary sewer and water tower projects is well under way.

That was the report this week just three weeks after Ontario's Environment Minister George Kerr announced that the projects could go ahead this year after all. To date the initial survey work for the water tower, reservoir and water extensions has been completed while the preliminary plans for the sewers are nearly complete.

The project got its provincial go-ahead in mid-June after a variety of protests and representations. Although formally approved by the Province in 1969, the project had been repeatedly stalled at Queen's Park. For Minden the two-pronged programme is vital for the community's continued growth, for fire protection and to combat Gull River pollution.

While it is expected that the projects' tenders will be called this fall for a Spring 1977 start on construction, it is expected that Minden council will this week seek from the Minister a firm and specific timetable for all aspects of the two projects. These would include everything from the preparation of the final plans, tendering and the awarding of contracts to the commencement of contracts and final completion dates.

Secretary-Manager

Last week's column carried the statement that the Chamber Office was now open every night until 9:00 p.m. except when we close at 5:00 p.m. The word 'Sunday' was omitted so that it should have read every night until 9:00 p.m. except Sunday when we close at 5:00 p.m. Sorry about that.

The brief presented to the Honourable Claude Bennett at last week's luncheon was pretty well shot down in flames by Mr. Bennett, some of it possibly with good reason. The following is some of the content of the brief and Mr. Bennett's response.

The brief opened by explaining that Haliburton is a 'cul-de-sac' area and that no traffic passes through on the way to anywhere. Mr. Bennett's response was merely that if we had a major thoroughway here we wouldn't be happy with that either. We were not suggesting we should have one - we were simply pointing out why Haliburton faces some of the economic problems that it does and why we require some special consideration.

As to the need for a major tourist attraction, Mr. Bennett not only agreed but said that his Ministry had stated some time ago that we should come forth with ideas in this regard. If this is the case, the present chamber directors were not aware of it before, but the ideas will certainly be forthcoming. The Chamber complimented the investors of the new Pine Stone Inn for their vision and were particularly pleased to hear that their staff will be almost entirely hired locally. Mr. Bennett agreed.

The Chamber was critical of the Ministry's O.T.A. P. programme which is channelling more and more of available funds into a centralized administration at the expense of local groups such as ours. Mr. Bennett flatly refused to consider any alternative to this programme and indicated that we could expect even less consideration in the future. The reasoning for this apparently, is that some regions had not handled their funding in a business-like manner, so the successful ones, such as ours, must suffer.

The fact that Northern Ontario receives promotional funds based on 90 cents on each dollar spent, while our area receives 75 cents on the dollar was brought out. Most of our citizens will agree that Northern Ontario is in a better economic condition than us but Mr. Bennett disagrees.

Mr. Bennett expressed surprise that we would criticize their advertising publications since many of them had won awards of excellence, but he did admit they were judged by people outside Ontario. The publications are impressive but the facts are not accurate and they require in many cases better research and input from the local bodies such as ours. There had admittedly been mistakes made by the Ministry, but it was also pointed out that many tourist operators are not responding to questionnaires as requested. The Chamber still feels there is a communication gap here and it will widen if the plan for centralized administration is carried out.

Mr. Bennett agreed that we do have a problem encouraging industry to locate here but denied that the 'green belt' terminology used by the government was intended to discourage it. It is apparently just our problem though, since there was little in the way of incentive the government could offer.

The gasoline prices here, Mr. Bennett said, were about the same as in Ottawa so there was really nothing to be concerned about. The prices had just dropped the previous day, however, and it's still a thing of considerable concern to us.

As to any kind of special treatment for Haliburton it was suggested that this is a standard cry because every area feels they have special problems - and all this time we've been asking just for equal treatment! No wonder we've been short changed.

The main message to be derived from all this is that we are going to have to dig in and attack these problems ourselves. The provincial government is certainly not going to worry about us - however, if we can come up with good, constructive, workable ideas to improve on what we have they will certainly, they say, attempt to help us implement them. The Chamber of Commerce certainly intends to test them on this and suggest other organizations do also - but the onus is on us - if we do nothing, nothing will happen.

Mr. Bennett and his party were not the only distinguished visitors to our community last week. Albert Jobin of the Paradise Cove Trailer Park called to let us know that the Canadian National Ski Team was staying at this place, on their way to Montreal for the Olympics. We hope they enjoyed their short stay in the Highlands.

PUBLIC AUCTION

SADDLES AND TACK

We have been commissioned to sell per order of American Saddle Company a large shipment of hand-made Western and English saddles and tacks of all kinds. Including approximately 100 Saddles most all with 5 year guarantee. Sunbeam Clippers, Kool Kare Pads, life-time guaranteed stainless steel bits and spurs, plus everything imaginable in the tack line.

AUCTIONEERS NOTE: THIS IS ONE OF THE MOST COMPLETE LINES OF SADDLE AND TACK THAT WE HAVE HAD AN OPPORTUNITY TO SELL AND EACH ITEM OFFERED WILL BE SOLD AT AUCTION TO THE HIGH BIDDER.

Friday

This Friday, July 16th, The Global Village Theatre will be performing their program 'Myths and Legends from Many Lands' in three of our local communities. Performances will be held in the Stanhope Public Library at 2:00 p.m. in the Haliburton Legion at 4:00 p.m. and at the Minden Community Centre at 7:30 p.m. Admission is free! Several legends comprise the programme, including, 'How Raven Created the World' from the West Coast Indians, 'The Pedlar from Swaffham' from England, 'The Sunken City' from Holland, 'Rags and Tatters' from Italy, and 'The Boy' from Germany. These stories appeal to all age groups, from pre-school to the adult level, and have received high acclaim from many well-known critics. This programme has been made possible in part through a grant from the Ministry of Culture and Recreation from the proceeds of Wintario, and is being presented by the Haliburton County Public Library.

Kinsmen
present
cheque

The 72 Kinsmen District 8 Clubs presented a six foot cheque for \$98,483.25 to the Canadian Cystic Fibrosis Foundation at the Kinsmen's Annual Cystic Fibrosis Luncheon on Saturday, June 5th in Sault Ste. Marie. Contribution to C.F. Research by the Kinsmen Club of Minden amounted to \$1,000 and \$224.35 from the Kinetic Club of Minden.

The Reeve's
Corner
by Reg Booth
Reeve, Anson, Hindon & Minden

This week we shall say a few words about taxation, and its effect on employment. Many people are not aware that it costs an employer extra dollars for each person employed. The employer must pay equal dollar for dollar with the employee for Canada Pension Plan. The employer must pay one and one-quarter times the amount paid by the employee for Unemployment Insurance protection. The employer must also pay Workmen's Compensation for the dollar value of wages each year. In addition to the above amounts, the employer must keep staff to collect and remit to the government all amounts collected and keep records for government inspection at all times. With all this added cost to the one who tries to create jobs, it is no wonder that employers are cutting the number of employees in present day manufacturing and business. Of course, our Prime Minister would not realize any of these problems because he has never had occasion to earn a living, or run a business for profit.

Cynicism

Progress readers will note this week that the Province of Ontario has made an immediate start on Minden's sanitary sewer and water reservoir projects, as promised by Environment Minister George Kerr.

Mindenites who profess a certain amount of cynicism as to Queen's Park's intentions in this matter can certainly be excused in light of the Province's performance on these two programs over the past 7-8 years.

Certainly, though, the immediate start made following Mr. Kerr's mid-June announcement that the projects were once more on the books for 1976 will go a long way towards dispelling this cynicism.

What would go even further would be a realistic, detailed timetable or schedule from the Ministry covering the various aspects involved in the two projects and the planned completion dates.

Needless

Last week, Page 1 Progress stories told of two needless deaths by drowning.

In both instances, the victims could not swim, yet life jackets or other approved lifesaving equipment were conspicuously absent.

One of the two tragedies was apparently the result of an overloaded boat, with seven persons - three adult men and four youngsters ranging upwards from 2½ years - jammed in a 16' canoe for an after-dinner paddle.

As if to make certain of tragedy they had deliberately removed the life jackets from the boat before setting out.

After many, many years in limbo, the canoe has recently regained and even exceeded its previous heights of popularity. This leaves a generation or two with virtually no experience in handling a canoe.

We would suggest to such persons that before venturing out they first learn about the craft and its good points, its bad points and how to handle it.

Certainly while it's been said often enough, it bears repeating once again, don't overload a canoe - or any other boat - if you can't swim, wear a life jacket each and every time you venture out on the water.

Report from Queen's Park

by

John Eakins, M.P.P.

On the last day of the Session, the Minister of Agriculture and Food announced details of the 1976 beef calf income stabilization programme. The premiums for this year are to \$5 per cow and the support price will be 50 cents per pound, the same as last year. Enrolment closes this year on the 16th August, and only cows in the producer's possession as of June 22nd may be registered. All contracts will expire in June 1980.

According to the Minister, the support price is calculated on 100% of the producer's operating cost. All beef cattle producers and cream shippers in Ontario are eligible. Producers who participated last year will receive enrolment forms in the mail and new participants may obtain forms from their agricultural representatives after July 12th.

The Ontario Federation of Agriculture has attempted to determine the costs of beef calf production on Ontario farms in 1975. Twenty-five farms were selected, all reputedly producing at above average efficiency. The farms were visited by a researcher in mid-summer last year, and again early in 1976. Two producers had ceased or greatly reduced production and the farm records of two others proved insufficiently reliable, so that final calculations included 21 farms only.

An attempt was made to select farms engaged solely in beef calf production, or farms where the costs of other enterprises, such as cash crop or hog production, could be accurately excluded from the cow-calf costs. The growing of feed for the animals was also included in calculation of the production costs. Most producers had adjusted to the cow-calf prices in the fall of 1974 by wintering at least some of their 1974 calves in 1975 and carrying some 1975 calves into 1976 for sale this year. It was not possible to isolate the costs of feeding and caring for these yearling animals, so the O.F.A. survey results included the costs and also the pounds gained, of steers and heifers. The average herd size in the group was 74 cows, with an approximate calf yield of 85%.

For the purposes of the O.F.A. survey, land values were established at \$130 an acre for all land in beef production. This figure was based on current sales values modified by revised assessment schedules for the area. Building values were based on the operators' estimates, often using the insured value as a guide. Machinery and equipment was valued on depreciated value of actual cost, and purchased feed was charged at actual cost with home-grown feed covered under figures for fertilizer, machinery, fuel, labour, etc. The receipts for cull cows were subtracted from total expenses and from each category pro rata. Where herd replacements were not specifically designated or selected, it was assumed that 15% of the heifers were destined to become brood cows. Their pounds gained were not counted at net pounds produced. Operators' equity in the enterprise was charged at 8% interest, and operators were allotted a full industrial wage of \$10,400 for managing a 150-cow herd, or any portion thereof on a per cow basis. No management fee was assessed.

This survey by the O.F.A. was carefully carried out, and would seem to be an accurate estimate of the situation. The O.F.A. production cost per pound is 71.7 cents - considerably higher than the Minister's 50 cents a pound. This production cost differential is very important when considering the effectiveness or otherwise of the beef calf stabilization programme. As the Minister stated the scheduled payment under the programme is based on four factors - the support price for calves, which is 50 cents a pound this year; the weighted average market price for calves, which will be calculated from fall sales; the average number of calves from 100 cows, which when calculated for the whole prove is 85; and the average weight of the calves in the fall, which is 450 pounds each.

See you next week.

Travels From Woodlot To Your Home

stitutions or through sales of bonds in the marketplace.

Today, millions of dollars are loaned to companies like wood processing concerns. Loans are also required to meet payroll and to finance storage charges for wood which may not be processed for years. Lumbering operations in Canada depend upon credit to transport materials from woodlots to storage and finally on to the mill. Similarly, inventory loans help bridge the gap between the time the timber is stored in the mill and when it becomes cut timber at the mill.

In 1974, 13.5 billion feet of sawed lumber were processed in Canada. The country also produced 21.4 million tons of pulpwood which went into the paper which carries these words.

Take the production of your chair several steps further. Transporting the wood from the mill to the furniture manufacturer involves credit to lease and operate trucks. When the wood is delivered to storage locations, credit in the form of inventory loans finances the storage of: (a) raw materials, (b) goods in process, and (c) final goods.

inventory. It is also essential to help pay wages and salaries of the company employees.

The chain is completed but the credit process continues. Lumber is required to ship the chair to the wholesaler or retailer and again to help finance payroll and storage of the chair as sold. Retailers, as well as wholesalers, need inventory credit to help pay storage of new chairs to be sold. Credit therefore may be considered as the lubricant that helps the process from formation of your chair from tree to finished product.

At the retailing stage, you, the purchaser of that chair, make your decision. Use credit or purchase with cash. If you choose to pay over time, instead of all at once your purchase credit becomes the final link in a long series of important credit-granting operations.

Canadians are spending 5.3 per cent more per year on household equipment and furniture (not including appliances). This figure in absolute dollars, is based upon Statistics Canada's National Income and Expenditure Ac-

counts 1961 - 1972, and appears in a recent Canadian Consumer Credit Factbook, published by the Canadian Consumer Loan Association and the Federated Council of Sales Finance Companies.

In 1975 data from the industry showed that \$1.3 billion of business was transacted in retail sales in furniture and appliance stores in Canada. Of this amount substantial sums involved consumer credit either through direct consumer loans or through sales finance companies.

This purchase credit you possibly need to buy the chair in which you sit is vital to important to you. But in the overall view of production activity, it is only one of many forms of credit which helped to bring that single piece of furniture out of the forest and into your home.

S again. It is a pleasure on a cold winter night to have the boys in for a reviving cup of coffee.

In the five years of twelve month occupancy of our retirement cottage, we have had fewer than a dozen short breaks — no losses. The Coleman and the Propabe and the wood stove stand ready to fill the gap. But their use will be infrequent and short termed. Our hats off to the lads of the line crews and the management, of our hydro. They make our rugged Haliburton land a pleasure to live in. Sincerely, The Art Kerns of Kushog, R.R.2, Minden, Ontario.

July 9, 1976

Dear Sir, Re: The Hickman-Schram Memorial Fund, Stanhope Twp., Haliburton County. Friends and acquaintances of the late Mrs. Margaret Helen Hickman and of her two young grandchildren, Karen and Gordon Schram, victims of the Hawk Lake Causeway collapse (May 23, 1976) will be interested in knowing that a fund for a Memorial to honour their memory has been started in Stanhope Township, where the tragedy occurred. Mrs. Helen Hickman, only recently retired from the teaching profession, had spent her summers since 1952 at the Hickman's cottage on Big Hawk Lake in Haliburton County and was well-known and admired by her friends and

neighbours in the area. As a teacher for many years, mainly in the East Toronto district, Helen Hickman was truly dedicated to her work, took a keen interest in her students and their progress even after they had passed from her classes and gone on to higher learning. While still teaching, she found time and energy to study in University courses, attaining three degrees — Bachelor of Arts, Bachelor of Education and Master of Education with honours. The fact that a room in St. Clair Junior High School, East York was dedicated as 'The Mrs. Helen Hickman Room' four years ago in recognition of her service attests to the high regard in which she was held by her associates. It would therefore seem most fitting that a memorial for Mrs. Helen Hickman and her grandchildren, Karen and Gordon (attended school in Peterborough) be placed in some building of learning such as the Stanhope Public Library, a beautiful new building just completed on Labour Day weekend, September 4, 1976. The Fund Committee proposes to dedicate some furnishings in the new Library to honour their memory and as well, to provide some recognition for the Stanhope Volunteer Fire Department whose members played such a gallant part at the scene of the tragedy. The Fund Committee believe that many of Mrs. Hickman's former associates and students as well as her many friends in this (Haliburton) area may wish to contribute to this Memorial Fund. Contributions may be sent to 'The Hickman-

Schram Memorial Fund' in care of the Canadian Imperial Bank of Commerce, Minden, Ontario or to the Treasurer, R.R. 1, Haliburton, Ontario. Also, general stores in the Big Hawk Lake and Little Hawk Lake areas and in the Half's Lake area will accept donations of what is more convenient for local donors. Income-tax deductible receipts will be sent to all donors by the Treasurer. It is hoped that sufficient donations will be received in time for the furnishings to be purchased and placed in the Library before the official opening and for dedication as Memorials at that time. Yours sincerely, (Mrs. Mrs. Adamson, Treas. Hickman-Schram Memorial Fund, R.R.1, Haliburton, Ontario, KOM 1S0 Telephone: (705) 489-2938 Mrs. Evelyn Gibson, Chairman, R.R.2, Minden, Ontario, KOM 2K0

June 21, 1976.

Dear Sir, I have just been made aware of the wonderful police service we have here in Minden. I am afraid that like a good many other people I took them for granted. But, last week out home was broken into. I will not go into detail regarding the effect this had on my husband and I, but I do feel that a public word of thanks to our O.P.P. officers is in order. Sincerely, D. Gilbert, R.R. 2, Minden, Ont. KOM 2K0

OTTAWA and Small Business

Risk must be recompensed

By KENNETH McDONALD

According to Frank and Wagnall's Dictionary, entrepreneurship is the conduct of business, usually with full control and risk. In other words, a self-starter, someone who makes things happen.

Entrepreneurs can be found in government, in big and in small business. They're needed everywhere, but Canada, especially, needs them in small business. In a community of 1,000 people, three or four entrepreneurs can make the difference between dependency and prosperity. The businesses they start and the jobs they create are like widening ripples in a pool. Then successes will inspire others to emulate them.

What they have in common is an attitude. Behind their drive for a success is the personal conviction of success. But entrepreneurial qualities can also be acquired. Students may develop when they summer work with small firms. Regular employees of small firms are themselves a natural source of such qualities. Entrepreneurial courses should be part both of formal education and of on-the-job training programs.

Entrepreneurs may get started for negative reasons, too, such as plant closure or being passed over for promotion. Job alienation and the absence of a sense of achievement

will often motivate people toward independence. However, though money is by no means the dominant motive, the survival of new enterprises requires an adequate cash flow in return for the investment and the risks assumed.

The individual is the key. If he can get 10 per cent risk-free from Canada Savings Bonds, he must recover more than that from a business to make up for risking everything. He has. Moreover, public policies must be directed toward removing barriers to the formation of new enterprises. The lack of manpower availability as a result of inadequate national apprenticeship programs

In its representations to federal and provincial governments, The Canadian Federation of Independent Business has made specific recommendations stressing the need for incentives to individuals rather than to banks, venture capital companies and other institutions.

Entrepreneurship is an affair of the community, matching men with experience and capital to the new ventures. Almost every community has a small, inconspicuous group of local businessmen and professionals who back local ventures, often in real estate. These groups are the natural channel for creating new enterprises. All are motivated to succeed because they're risking their own money. That's the secret. It's a local, self-generating process.

THE KANAWA INTERNATIONAL MUSEUM

The canoe and its first cousin, the kayak, have been entwined in the history of this great continent. In the frail but yet certain arms of these craft, the Indian found an attractive companion for hunting, trapping, exploring, and moving his family so that his natural surroundings would afford him food and shelter without over use. When the first immigrants arrived in North America, they soon discovered that the long boat could not keep pace with the craft so indigenous to this vast land. It is interesting to note that among the many aquatic craft now in evidence, the canoe and kayak shapes have remained intact even though materials and methods of construction have changed.

The canoe and kayak were constructed of materials that were readily available and designed to cope with unique conditions of the territory which it represented. Furthermore it was a reflection of the cultural background and traditions of the builders. Other influences on these craft included: conditions and lengths of portages, permanence of construction desired, kind of transportation needed, and difficulty of the waterways that were encountered.

Many important advantages are associated with the canoe. For example, they could be easily and efficiently propelled by a single blade; the paddler could face the direction of travel which is important in shallow water and fast running streams; it could be portaged over long distances; it could carry a heavy load in shallow water, and it could be repaired in the forest without special tools.

The canoe and kayak now thrives for different purposes than those conceived by the inventors and its earliest users. Whereas at one time it accommodated the explorers, missionaries, fur traders, prospectors, engineers, surveyors and many other groups who each in their time penetrated the frontiers, today the greatest value of these craft is to people in their recreational pursuits.

It is appropriate then that an honoured place was established for these magnificent, simple but effective craft. The beginning goes back to a dug out canoe and the enthusiasm of Camp Kandalore for exploring the wilderness by the canoe and kayak. In 1959 Professor M.G. Griffiths at the University of Toronto presented the camp with a magnificent basswood dug-out probably built by the Payne Bros. at Lakefield. Soon some fine specimens were added through Mrs. Frances Douglas at Lakefield in memory of her husband, George Douglas. Next came a lapstrake canoe which was on display at the Peterborough Canoe Company before it ceased to operate. All of these craft were suspended in the camp dining hall where visitors viewed them and expressed remarkable interest in the display even though it was presented inadequately.

When it became abundantly clear that a special home was needed, plans for a building were discussed and finalized. The Museum was established in the heart of canoe country and the construction is a story in itself, but the result was a structure of unique design which would accommodate at least 120 specimens.

There are many interesting aspects to the undertaking but no doubt the most impressive is the manner in which so many persons near and far have responded to make the display as comprehensive as possible. The urge to preserve and protect for the enjoyment of others now living and those yet unborn is gratifying. And further, the reaction of those who visit and examine the contents is positive and appreciative. These are at least two important reasons why the Kanawa International Museum has become what it is.

The museum is divided into groupings including bark craft, all wood (board) canoes, wood covered with canvas (or equivalent), dug-outs, racing canoes and kayaks, large size canoes or kayaks, forms and molds, paddles/blades/oars (or other propelling devices) canoes and kayaks of unique design and purpose, canoes and kayaks of contemporary builders, comparative craft from other countries, rowing craft for regular or racing purposes.

And so the Kanawa Foundation from an idea born twenty-five years ago, continues in a state of development for which no real terminal point is in view. Moreover, that is the way it should be, because a dynamic project of this kind should have no end. After all, history is still in the making!

You are invited to visit the museum complex which is located just off Highway 35 in north Haliburton, either 12 miles south of Dorset, or 20 miles north of Minden. The entrance is appropriately marked by the Kandalore sign in the form of a canoe with three paddlers over the gates.

Tchimbé guards the entrance to the new Kanawa International Museum. This totem was carved by Wolfgang Ruck. He has carved many others throughout Camp Kandalore.

Camp Kandalore

Camp Kandalore is a summer camp adventure for boys six to sixteen. The present enrolment at the camp is 170 with a staff of 85, including specialists.

The boys are housed three or four per house, and are grouped into juniors, intermediate and seniors.

The Camp is situated on Lake Kabakwa (Peach Lake). The boys learn many skills, including mountain climbing, archery, musketry, riflery, lifesaving, swimming, carving, sailing, boating, skindiving, wildlife, crafts, etc.

This camp is open all year round and has been since the present owner-director Kirk Wipper bought the 150 acre camp twenty years ago.

One of the highlights of the Camp is the famed Heritage Trail. The trail features buildings which house many of the old blacksmith tools, farm implements, household goods, early transportation and farm items as well as logging tools, etc.

This trail is now open to the public seven days a week in single or groups (if in groups, please phone ahead so that a guide will be available when you arrive).

The camp also is known for its canoe trips in the

summer. The largest expedition at the present time is on its way to Kingston. The large 40 foot Montreal canoe set out from Cobosconk on Friday, July 9th and will arrive in Kingston on Sunday, July 18th. In charge of this trip is John McEachen, B.P.H.E. and a number of staff from Kandalore.

From July 19th to 26th - the voyageurs will be camping on Richardson Beach (Kingston) and participating in the 'Festival of Nations' program celebrating this Olympic year. Rides in the 'Montreal Canoe' will be offered to the public free, daily from noon to 5:00 p.m. They are not ferry rides, as the public is welcome to paddle along with the costumed voyageurs.

Another canoe voyage set off on Sunday, July 11th, with their destination Hudson's Bay. To be precise, a small island in the Bay, which belongs to the North West Territories. There are two other trips planned for Algonquin Park, and one to Quebec later in the summer. This Camp stresses four things to the boys that spend their summers here, adventure, sensitivity of the environment, reforestation and soil conservation.

A look at the Junior section of Camp Kandalore and canoe launch.

Hall's Lake News

Doreen Stinson

Next Sunday, July 18, at St. Stephen's Church, Boshkung, two beautiful new chairs for the Chancel, complete with brass plaques in memory of the late Benjamin Harrison and the late William Mole, are to be dedicated. It is expected that the Suffragan Bishop Allan Reed of Toronto will be on hand to take part in the service of Dedication. Mr. Albert Hart spent some time with his daughter Mrs. Small in Frodoe before making his flight to Edmonton to visit for a time with his second daughter Mrs. Murray and family. The William Lindays had the House Guests this weekend their recently married daughter and husband, Mr. and Mrs. Larry Webb, Miss Connie Webb and Mr. Fildie Hall, all of Ajax. Welcome to the Bill Jamesons and their two young sons, Kevin and John, and also to Mr. John Jamieson Sr. who are holidaying at their cottages.

We notice the Brunt young folks are here and the Goldbuchs, and also see a lot of familiar faces from the local Campsites again this year. So nice to have the Lorne Coburns and Grace's sister, Miss Stella Richardson up from Minden for dinner one evening last week. It is always good to have Jean and Keith Irwin, and enjoyed having the Manns from Montreal with their friends from Newmarket.

Enthusiastic new members of Club 35 have finished a tedious job at Club 35, and the spanking new fire-escape steps are a real improvement both for safety and looks, and the result of much discussion over the years. Mr. Maurice McLaughlin and his equipment of Pine Springs, Mr. Ed Gooderham, Art Hunt, Bill Lindsay, George Hunt, Frank Ferris and Mr. Trodd gave freely of their time and energy during the hot weather when the flies and mosquitoes were at their worst. The rest of the members are certainly deeply grateful to these men for their efforts.

Mr. and Mrs. Robert Nicol have departed for home, but will be back to the Montgomery beach cottage. Mr. and Mrs. Robert Henderson are up now for a two week vacation. These folks are all relatives of the Grant Montgomerys.

The Bingo Games at Club 35 got off to a good start last week but perhaps as word gets around and more people arrive, they will increase in numbers.

Nice to see Mrs. Silver with daughter, Margaret, and son, Andrew up at the lake again, and busy painting their cottage.

We keep hearing about the good fish dinners people are enjoying so we know there must be some good lake trout being caught.

Mrs. Audrey Wilkinson and Mrs. Agnes Taylor, spent a day or two in Toronto last week.

Mr. and Mrs. Harold Penney of Toronto, together with Mrs. Penny's sister and friend are now staying at Histiabrac Cottage.

Miss Eleanor Gilchrist is now in residence at her cottage. Miss Elora Morrison and Miss Mary Northway are at Windy Pine.

Main Street, Minden.

The Hamilton men of the Hall's Lake Coffee Club continue to meet each morning at 8:30, and Daniel Regan hasn't missed one week-day morning since his arrival at Scott's cottage across the lake. Mr. Murray Hall is a recent visitor also. Everyone will be pleased to learn that the St. Stephen's Guild are planning on their Annual Bazaar and Tea on July 28th at the Club House when their lovely quilts and other artistic work will be displayed for sale and lots of other goodies on the bake table, the ladies work hard all year preparing for this event and hope it meets with the usual enthusiasm.

Don and Dorothy Hall recently took their cabin cruiser down the Trent, but unfortunately, it was during those rainy days so every day wasn't ideal for such a cruise and now they have the boat back here in Hall's Lake.

Enjoyed a birthday and anniversary celebration recently at Mr. Fogg's where the food and decor are inviting. Ruth and Archie Neil and little grandson, David, Revell, were in on the party. Many business people and visitors to the area can be seen enjoying themselves in the pleasant atmosphere.

If you happen to be driving along and notice a contraption suspended from a tree or sitting on someone's veranda, you'll know there is a 'bug barbeque' going on. These are an electrical device contrived to clear the air of bugs, moths and other flying insects. The deep blue tubular lights attract the insects and they fly in and are immediately exterminated. One could sit and watch and listen to the hissing and sparkling all night for it seems to be a never-ending procedure and the bugs keep getting sucked in.

Talking of Club 35, there was considerable painting done to the interior, by the ladies and several gentlemen, and a ventilating fan in the washroom and other improvements to bring it up to Department of Health standards. All of these people are thanked for their labour and interest in this little Club House.

The Senior League

The Hyland Crest Senior Citizens Home was a beehive of activity last Wednesday on the occasion of the Home's 10th Anniversary. The official ceremonies got under way at 1 p.m. with Mrs. Grace Coburn singing BLESS THIS HOUSE. REV. JOHN SMITH delivered the invocation and CHAIRMAN DOUGLAS RUSSELL introduced the speakers.

REG. BOOTH, Reeve of Anson, Hindon and Minden, congratulated the Home staff on the beautiful decor for the ceremonies and added, 'I hope the next ten years are at least as good as the last six or eight at Hyland Crest.' ELSIE BURSEY, retiring administrator of Hyland Crest (Sept. 1), commented that five of the residents who entered the Home back in 1966 are still in the Home today, celebrating this 10th birthday.

JOHN EAKINS, M.P.P. for Victoria-Haliburton, complimented the friendliness of the Hyland Crest staff and commended Mrs. Bursey and her staff on the tremendous work they are doing for our Senior Citizens.

ED PENNY, District Branch Consultant of Eastern Ontario, said of Mrs. Bursey, 'She has put an image in the Home, as well as in the Community, and that everyone is sorry to see her leave Hyland Crest.'

BILL SCOTT, M.P. of Victoria-Haliburton, said that while Mrs. Bursey has been administrator for the last six years at the Home, she has been around since the growing pains. All speakers at the BIRTHDAY PARTY for the Home expressed congratulations to MR. SID BROWN on his appointment as the new Hyland Crest administrator on the retirement of Mrs. Bursey.

MARK VASEY, first Hyland Crest administrator in 1966, also expressed greetings on this auspicious occasion and helped Mrs. MURIEL MEDLEY, one of the founders of the Home) to cut the BIRTHDAY CAKE.

In the evening, residents and guests enjoyed two hours of fine entertainment from the HALIBURTON HIGHLAND PIPE BAND, HALIBURTON SCOTTISH COUNTRY DANCERS, vocal selections from the KINSMAN SISTERS, and PEGGY NEVILLE, organ music from FRED BAL-LARD and were also entertained by the HALIBURTON HIGHLANDS MAJORETTES under the direction of Vicki Packard.

After the entertainment portion of the agenda, everyone adjourned to the auditorium for a beautiful buffet lunch, put on by MARK SCHELL and it was delicious!

Pit, stem, pack, pour syrup over, freeze.
Ontario fresh sweet cherries — there's
nothing to equal the flavour!

Get on it! You must get
about two weeks a year
to eat and freeze sweet
cherries. The crop is usually
ready on about July 15th.
You probably know how
good sweet cherries taste
fresh. Do you know that
they can be frozen suc-
cessfully? Food specialists at
the Ontario Food Council
Ministry of Agriculture and

Food do it every year, and
get marvelous results.
The secret, of course, lies
in choosing fresh, firm
sweet Ontario cherries. Food
specialists say it's a good
idea to pit the rinsed and
stemmed cherries before
freezing, so that you won't
have to thaw the cherries
completely to pit them
when you use them. There
is a little kitchen gadget

Sweet Cherries All Year Round

that can be purchased from
the pub — you guessed it,
it's called a cherry pitter.

Once the cherries are
pitted, prepare a syrup of
2 cups of sugar to 3 cups of
water. For better colour
retention, dissolve 1/4 tea-
spoon ascorbic acid in the
cold syrup. Put the pitted
cherries in containers (as
shown) pour the syrup over,
leave a 1/2 inch headspace
for expansion, cover, seal,
label and freeze immedi-
ately.

You'll be glad you did!

About the Town

with Jeanne Sears

We have been watching the Canada A.M. Show on
TV early in the morning. We understand that
visitors and residents in our area now get fair
reception of Channel 9 since the CN Tower has
been opened, especially now the coverage of
Queen Elizabeth and Prince Philip visiting the
U.S.A. last week. She will officially open the
Olympics next weekend and it is to be hoped that
everything will go well. All the best to our own
Canadian Athletes — may they represent us well.
Mr. and Mrs. Eddie Pergolas have had his sister,
Mrs. Vinnie McKenna of Toronto visiting them.
The Kinette Club are having a Bazaar-Bake Sale on
the bank lawn on Saturday, so get your baking or
gifts there.

Sincere sympathy to the families and friends of
the Late Isabel Bingham, John Darwin and William
Wynker, Sr. who passed away in the past week.

We note in the news already this summer, how
many drowning fatalities there are, be sure and
take your life preserver with you and know how
it is to be used. Remember even the best swimmer
can drown and don't take chances!

Mr. and Mrs. John Gibson of Gannington visited
Mr. and Mrs. Art Austin on Saturday.

The 10th Anniversary of our County's Hyland
Crest Senior Citizens' Home was very colourful,
last Wednesday. After a brief shower the
programme went on outside on the beautifully
terraced grounds in front of the building. Most of
the ladies and staff were very attractive in their
long gowns and those not on the lawn, crowded
the galleries or watched from their rooms. The
evening programme showed the many guests the
talent we have in our County.

The community sends good wishes to those people
who are or have been in hospitals. Leslie Prentice of
St. Joseph's Hospital, Peterborough, Mrs. Frank
Waters, Toronto General, Mrs. Mac Irwin, Nellie
Graham and John Cowan, Ross Memorial.

This Friday at 30 at our Recreation Centre
will see Global Village Theatre presenting
Pantomime of Myths and Legends from Many
Lands. This is mostly for youngsters, but is free,
to all and comes courtesy of Haliburton County
Public Library.

I'm thankful for such simple things

As butterflies with coloured wings.

For every bird that sweetly sings.

For cooling drops of summer rain

That fall upon my window pane

For grazing sheep and golden grain

There are so many simple things

That to our lives much comfort brings

And make us great as reigning kings.

L.H.

Bradley Robinson was away visiting his cousins,
the Phil Rogers over the weekend at London.
Weekend guests with her parents Mr. and Mrs.
Fred Wright were Mr. and Mrs. Ted Johnson, Ruth
and Randy of Scarborough and Sara Walker went
back with them for a holiday.

Do you think this is true? An old-timer as a person
who remembers when sex education used to be
called marriage.

Old bric-a-brac of hazy hue,

Design too awful to be true,

Takes on an air of instant chic,

The moment that it's called antique.

Donna Evlith

With carnivals coming up here's a hint: buy
balloons for your youngsters and tie on a long
string, then you can locate them quite easily.

And here's a hint for shoppers — whenever possible,
buy the exact size or package for your recipe.
Also when trying a new food, buy the smallest
size, even though it may cost a bit more. These
will both minimize leftovers.

Some showers again over the weekend, and cool
weather to come for part of the week, now we can
get some of the gardening or grass done. Drive
carefully.

Cheerio until next time.

Cheerio until next time.

Charges follow 4 crashes

Four persons were charged by police following four separate collisions last weekend which saw one person injured and total damages of some \$8,600.

Sunday afternoon, a car driven by Kenneth C. Papageorge, 18, of Toronto, was northbound on Hwy. 519 when it failed to negotiate a curve. It then slid down an embankment striking a shed and hydro pole.

Mr. Papageorge was treated for cuts at Haliburton Red Cross Hospital and then released.

Lloyd Matheson of Toronto owner of the car has been charged with having no insurance and Mr. Papageorge was charged with driving without a licence.

Damage to the car was estimated at \$1,500.

Investigation by Provincial Constable Bob Pearson.

Horseshoe Lake Road was the scene of an accident on

Friday afternoon, when a car driven by Phillip M. Doige, 20, of Ottawa, failed to negotiate a curve and entered the ditch.

Damage to the car was estimated at \$2,000.

Mr. Doige was charged by police with careless driving. Investigation by Provincial Constable Jim Sobray.

Early Sunday morning on Hwy. 519 near Donald, Ronald C. Richardson, 28, of Pontypool, was making a right hand turn into a laneway, when his car was struck from behind.

Charged with impaired driving and following too close is Hartley J. Bacon, 20, of Lochlin.

Damage to the Bacon vehicle was \$600 and to the Richardson vehicle, \$500.

Investigation by Provincial Constable Weldon Popp.

South Lake Road was the scene of a one-car accident last Saturday morning, when a

car driven by Leslie D. Burke, 25, of Minden, entered the ditch and struck a tree. Damage to the car was estimated at \$4,000.

Investigation by Provincial Constable Al Rollins.

Commit Mrs. Ruppi for trial

Mrs. Patricia Louise Ruppi, 35, of Minden was committed for trial at the Fall assizes by Judge G.F.W. Inrig on a charge of murder at a preliminary hearing on Lindsay early last week. The charge followed the mid-December death last year of her husband Neil Alex Ruppi 71.

Township of Stanhope AUDITORS' REPORT

To the Members of Council, Inhabitants and Ratepayers of the Corporation of the Township of Stanhope.

We have examined the 1975 financial statements of the Corporation of the Township of Stanhope. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion these financial statements present fairly the financial position of the Corporation of the Township of Stanhope as at December 31, 1975 and the results of its operations for the year ended, in accordance with accounting principles generally accepted for Ontario municipalities applied on a basis consistent with that of the preceding year.

Humpage, Taylor, McDonald & Co.

Trent-severn Waterway News

The July 1st holiday week-end was a great disappointment because of rain, however, it did provide enough precipitation to bring the Reservoir Lake Storage up to 93% on July 8 and maintain it at 92% on July 8.

During the week July 2 - 9 it has been necessary to run off the overfill on the Kawartha Lakes to maintain a safe level in case of more continued rain. However, the flows were cut back toward the end of the week as the safe levels were reached.

A steady flow was maintained out of the Reservoir Water-shed with the water being stored up to the safe levels and the excess being run off.

The rainfall for the month of June measured at the Peterborough weather office was 79.3 mm with 2/3 of this total falling in the last week of the month. This means that it rained 50 out of the 7 final days. The average for June is usually 83 mm.

This coming week it is expected that the flow will remain fairly constant from the Reservoir Lakes, even if the weather remains warm and dry.

Work is also continuing on the reservoir dams and boaters are again reminded to look out for the new booms being placed in front of the dams. Also any boater or person in the vicinity of these dams should pay special attention to the inherent dangers around the structures such as, the swift currents and undertows.

Farm News'n Views

FROM THE LINDSAY AGRICULTURAL OFFICE

We received an interesting news article this week from Don Stevenson, the Sheep Specialist for the Ontario Ministry of Agriculture and Food. It is entitled, "The Rights of Dogs and of Sheep Owners" - as many farmers in the area have small flocks of sheep, we thought it would be of interest.

Sooner or later, most sheep owners are confronted with the problem of a dog or dogs molesting their flocks. This may result in some of the sheep being killed or injured, or the flock badly upset. The latter case is even more serious if it occurs at breeding time, when the entire future production of the flock can be affected.

If the sheep owner shoots the marauding dog, suddenly the dog assumes tremendous value and there are various threats, both physical and legal, made against the sheep owner.

The rights of the various parties involved are explicitly outlined in the Dog Licensing and Live Stock and Poultry Protection Act, a copy of which is available from the Lindsay Agricultural Office. This Act covers both dog and wolf damage to livestock and poultry. The local municipality pays the livestock owner, for damage, once it has been assessed by a local evaluator. In the case of wolf damage, municipal costs are recovered from the provincial government. For damage done by dogs, the municipality can recover the monies from owners of the dogs, if they are known.

The Act states that "any person may kill a dog (a) that is found killing or injuring livestock or poultry, (b) that in a village is found between sunset and sunrise straying from its home, or (c) that is found straying at any time, upon premises where livestock or poultry is kept."

The Act provides for municipalities to collect dog license fees and for the control of dogs running at large.

The problem of dogs running at large can be reduced in three ways: First, livestock owners should familiarize themselves with the legislation. Second, township councillors and clerks should be made aware of their obligations in the area of dog licensing and control. Finally, dog owners must be made aware of their responsibility in controlling their animals and their financial responsibility for any damage caused by the dogs.

SPONTANEOUS COMBUSTION - With the wet weather the last few weeks, many farmers are rushing the hay when the sun shines. However, storing hay that is not completely cured, can be dangerous. As well as lowering the quality of the feed through heating, it can also result in a spontaneous combustion fire, threatening buildings and livestock, and human lives.

A practical way to check damp hay for heating is a simple, inexpensive probe which should give the farmer advance warning of a spontaneous combustion fire.

The probe consists of ten feet of 1/2 inch electrical tubing. A sharpened hardwood point is riveted to the end about six, 1/2 inch holes drilled just above the point. The probe is then driven eight or nine feet into the hay. Then an ordinary candy, or oven thermometer tied to a cord, is lowered to the bottom of the tube. After the thermometer is in place for approximately five minutes, it is removed and the temperature noted. The operation should be repeated in different areas of the hay mow.

Here are the following temperature signposts

150 F - entering the danger zone. Make temperature observations daily.

160 F - Danger! Inspect every four hours to see if the temperature is rising.

175 F - Fire pockets may be anticipated. Call the fire department pumper and wet down the hay.

SCOUTING Annual Report

The following annual report on the Minden area Scouting Movement was presented July 6th by Gerry Feltham, Chairman

The Group Committee members and leaders appreciate the interest and help shown by you in the July Annual Meeting. Normally, an annual meeting would be held in May or June. However, the idea of attempting an annual meeting only occurred to us in our June meeting, and consequently, it was not to have our 1st Annual Meeting, then it would have to happen in June. Undoubtedly you, the parents and friends have always been a part of the scouting movement by encouraging the boys to attend the regular meetings and to become active members of the organization. Still, we wish to urge you to put on your list of priorities in the upcoming season some time for the scouting movement. We need your assistance as a member of the Group Committee, a leader of a group or a helper in one of many ways. You can help in either a large or small way. Where there are boys and young men, then scouting is essential. As parents and citizens we have the opportunity and the responsibility to provide the necessary good leadership to enable the boys to have a worthwhile scouting experience. Special thanks must go to our Group Committee Members (most of whom are also group leaders). My position as interim chairman has been made quite easy this year due to the magnificent responsiveness, willingness and capability of the Group Committee members. At each of the monthly meetings, you were quick to respond to the business of the meeting and took responsibility to attend to the matters arising out of the meeting. In particular, Jo-Ann Penfold has been just terrific in fulfilling the secretarial duties and Charlie Bradburn has continued to keep account of the

financial affairs with precise accuracy. Walter Brown, the vice-chairman and others on the committee have offered suggestions and advice for which I was very grateful. Special thanks also to leaders of the Beavers, Cubs, Scouts and Venturers. We are extremely fortunate to have dedicated, capable leaders. Not only do they regularly attend their weekly group meetings and the monthly group committee meetings but frequently spend other evenings and weekends with scouting events. Most of these leaders have family and other responsibilities, and yet they are concerned enough to spend much time, thought and energy in order to be of special service to our sons - the young people of this community. On behalf of the parents, the boys themselves, other members of the group committee and the community generally, may I say a special thank you to each of you, ladies and gentlemen. Finally, this year we are especially proud of our two new groups, the Beavers and the Venturers. As their name implies, they have been performing like Beavers with their activities and like Venturers with the venturesome hikes. The boys and their leaders have been very keen in their activities. A little later we shall have brief accounts from them along with the cubs and scouts who have continued to function well under excellent leadership. We are very grateful to the wardens of St. Paul's Anglican Church for the use of the church facilities. We are thankful, too, to the Haliburton County Board of Education for the use of Archie Stouffer Elementary School. With expanding groups and activities the church and school facilities are quite essential.

Recover runaways and cash

Two Brown-dale runaway girls who abused an elderly Minden woman's hospitality, then stole her change purse containing some \$76 are now back at Brown-dale, the money returned to the owner. A week ago last Monday morning, Mrs. Audrey Campbell, 80, opened her Bobbay-geon Road door to find two 15 year-old girls seeking a room. After viewing the room, but declining it, they stayed on for some hours during the day, washing out their clothes, and making phone calls, according to Mrs. Campbell. Asked to leave by a roomer of Mrs. Campbell's when he returned home late that afternoon, the two wanted girls were picked up within minutes by Provincial Constable Bill Glenndinning who spotted them on the street as he drove by. Finally missing her money, Mrs. Campbell to police who later recovered the cash from under the front seat of the police

Mrs. Maude Campbell

to police who later recovered the cash from under the front seat of the police

cruiser where the girls had apparently hidden it after they were taken into custody. No charges have been laid. Investigation by Provincial Constable Bill Glenndinning.

The First Annual "Heineken Yard" Foot Race

One of the events afoot during this summer, Minden Rotary Carnival will be a five mile running race from Onondaga Camp to the Minden Bridge. Starting time for the contestants will be 4:00 p.m. on Thursday, July 29, the second day of Rotary Carnival. One trophy, alone, a Heineken Yard Glass and Stand will be awarded to the winning runner. A permanent plaque will record the victor's name and those of subsequent winners over the years. Interested participants should begin training immediately. Registration is not required. All participants should gather at the Onondaga gate by 3:30 p.m. For any inquiries, call the Rockcliffe Hotel (286-1460).

Ladies softball drawing big crowds

Tired of watching T.V. of hoeing the garden, then go on out to your local ball park and watch the Ladies of Haliburton County do their thing. The ladies from Minden, Haliburton, Camarvon, Guilford and Gooderham play two games a week, one at home and the other away.

At the present time, Haliburton and Gooderham are deadlocked in first place with twelve points each. Minden is in third spot with six points, Camarvon fourth with four and Guilford, fifth, with two.

The game played here in Minden last Monday evening featured the two teams whose pictures appear beside this article, Minden Dollo's IGA and Aest Guilford Sporttown.

The game started out like the Sporttown girls were going to score a hundred runs. At the end of the first inning it was 13-0. However, after a pitcher change for the IGA girls by coach Mike Jackson, the game turned around in the third inning, and Minden went on to post an impressive 46-29 victory. Denelda Denelko picked up the win for IGA in relief of Charlene Fountain and Heather Sweet, in relief of Alberta Nichols, suffered the loss for Sporttown.

In other games this past week on the Ladies circuit, Haliburton stayed close to Gooderham with two lopsided victories, 34-16 over Camarvon and 29-16 over Guilford. Gooderham, however, kept pace with two wins of their own, winging 26-8 against Camarvon and then downing a stubborn Minden squad 16-9.

Back row, l-r; Pete Dollo (sponsor), Carole Toye, Helen Burk, Norma Burk, Lori Hewitt, Charlene Fountain, Judy Campbell, Ray Marie Burk, Lynn Wy-

man and Mike Jackson (coach). Front row, l-r; Lori McKay, Danalda Danalko, Darlene Denalko, Shelly Moxam and Nelda Cully.

West Guilford on move

The West Guilford Redmen are making their move on the Haliburton Senior Men's League. Winning three straight games last week in the Senior Men's League, including a 4-1 win over Haliburton, the Redmen are now only two points out of first with three games in hand.

The Redmen started off the week with their win over Haliburton and then on Sunday afternoon in Guilford they took both ends of a doubleheader. The first was a 6-0 blanking of the Haliburton Legion and then they whitewashed the Haliburton Huskies 5-0.

On Monday in Minden, Wade Stamp threw a six hitter at Haliburton to record the victory. Derrell Stamp and Barry Shaw each chipped in for round trippers to help the cause. Ted Vasey suffered the loss for Haliburton.

In the game against the Legion Barry Shaw limited the visitors to just three hits in recording his third victory of the season and second shut-

out. Derrell Stamp had a homer in this contest. Mark Schell took the loss. Against the Haliburton Huskies, Bernie Nichols took to the mound and pitched shutout ball in picking up his first win of the year in his first start. Once again Derrell Stamp came up with a homer, his fourth in the last four outings.

Dominion Hotel came up with a win and loss this past week. On Tuesday evening in Haliburton the Huskies came out swinging and gave the Hotelmen 5-2 which just about eliminates them from any chance of winning the league championship as they now own an 8-7-1 record. Back in the friendly confines of Minden on Wednesday evening the Hotelmen took out their frustrations on the hapless Haliburton Legionnaires 10-1. Rick Stamp picked up the win and Jack Snell suffered the loss. In the Legion contest, Snell was the winner and Mark Schell the loser.

Anyone can be a consistent putter

There have been many articles written on putting and probably as many theories to accompany them. The quickest way for an average player to bring his score down, and thus lower his handicap is by improving the number of strokes he takes on the greens. This part of golf, requires no great physical attributes or tremendous power. Count the number of putts you make per 18 hole round. If you came up with more than 36 putts, your putting needs improvement.

THE PROPER GRIP - The grip most widely used by the top pros, is the "reverse overlap grip". The club is gripped in the fingers, and the club handle is under the heel pad of the left hand. When the hands are closed the palms are square to the line, and the thumbs are straight up and down the shaft. The left forefinger rides on top of the right hand.

COMFORTABLE STANCE - The "Square Stance" is the most recommended by pros, where the toes are parallel to the intended line. The square stance will promote good balance which is a key to good putting. Have your feet just far enough from your body, so they clear your thighs during the stroke. To be certain that your hands lead the club, play the ball just inside the ball of your left foot.

BASIC STROKES - There are three basic types of putting strokes. The wrist type, in which the wrists move like hinges, the arm stroke, where the wrists are held rigid, and just the arms move back and forth to make the stroke, and the combination of the two, in which the arms and wrists move together.

Whichever of these three strokes you care to use, the most important thing to remember is to strike the ball solidly. To achieve this, you must strike the ball with an accelerating stroke, and be sure that your left wrist does not break down before impact. The left hand must extend through toward the target, after the ball is hit. The stroke should be smooth and rhythmic and the putter blade must remain close to the ground on both the back stroke and the forward stroke. Keeping the blade of the putter square to the intended line is essential for accuracy.

The best way to improve now is to practice the above suggestion, as the old cliché says, "Practice Makes Perfect!"

Comments from Kinmount

By Fran Crawford

Friends of Mrs. Dorothy Hasselfelt will be glad to know she came home from Ross Memorial Hospital on the weekend.

Mrs. Rolly Spencer is staying with her for a few days while she is recovering from her recent operation.

Mr. and Mrs. Larry Swinson of Bowmanville visited with Mr. and Mrs. Jim Swinson over the weekend. Lynda Bacon and fiancé, Harry Tremblay, and friends Judy and Harvey visited with Lynda's mother, Betty, at Furnace Falls over the weekend. They held a surprise outdoor bridal shower for Lynda on Sunday afternoon with friends and family, including Mr. and Mrs. Lorne Bone of Maple, who were visiting Mrs. Margaret Bacon. Lynda ended in a double shower, as guests grabbed presents and made a dash for the house to get out of the rain. But all ended well and congratulations go out to Lynda and Harry as their wedding day approaches, July 24th.

Dean Garshore and Lauren Boisvert left for their homes in Saskatchewan on Friday accompanied by David Hartin of Kinmount, who hopes to find work in their area. Good luck, David. It's too bad that local youths still have to leave the area to find jobs.

The Pearson family, Susan, Leanna and Billy had our Legion Hall last Saturday afternoon and evening to celebrate the 25th wedding anniversary of their parents, Alice and Bill. A catered dinner was held for some 60 family members, followed by an open dance attended by friends and neighbours. Music was supplied by a very good disc jockey. A good time was had by all.

Dora and Bill Lilley attended the wedding of their grandson, Jerry Smith and Cathy Grizzell at the United Church in Norland on Saturday. They had a lovely reception followed by an open dance. Many beautiful and useful gifts, as well as money were received. Jerry and Cathy left for a short but sweet honeymoon at Niagara Falls. Congratulations and best of luck!

Mr. and Mrs. Ernie Anderson and June Grizzell left on Friday for a motor trip to the Yukon to visit family there.

LEGION 41

Congratulations go out to Mr. Cec Yearwood of Minden who finally won the 50-50 draw which amounted to \$50.00. Cec is one of the Minden boys who seldom misses purchasing his five tickets for \$1.00 every week.

Friday night Bingo winners were: Maizie Brown of Cobocok, Velma MacDuff of Gooderham, Betty Bacon of Furnace Falls and the following from Kinmount - Lila Shaw, Lora Swinson, Mary Monro, Mary Hartin, Sharon Brown and Elaine Farrell.

We have new Legion hours for the summer, effective this week. Monday through 16 Thursday, 2:00 p.m. to 6:30 p.m. and 8 p.m. to 11 p.m. Friday - 2 p.m. to 12 midnight and Saturday, 12 to 12.

There will be a regular dance this Saturday at Legion Hall with Marg Graham and her Westernaires. Like to see a good crowd!

The Bears

The BEARS is a beautifully laid out 18 hole Miniature Golf course situated 11

miles north of Minden beside the Lil' Chick Inn restaurant. Costing approx-

imately \$1,500 to build, Bryan Goodger (seen in top photo), has put together a fun, but challenging course for the public's pleasure.

As you can see by the above photo, the course is beautifully laid out beneath a

birch and maple orchard designed to provide six medium and six tough holes. The course has been fairly easy.

One of the easier holes on the course, is this par 3 hole. Although easy, it is nevertheless an imaginative hole to play. Others feature water traps, bank shots and still others the golfer must shoot through the pipes and hoses to reach the flag.

Let 15 year-old drive...owner charged

A Midland man whose 1969 model car was virtually totalled by a juvenile driver a week ago now faces two separate charges.

Following the Guilford Township collision a week ago Wednesday afternoon, police charged car owner, Douglas Titus of Midland with having an unsafe vehicle and permitting a person under 16 to drive.

According to police, the car was westbound on the Barry Line with a 15 year old West Guilford girl at

the wheel when the left rear tire blew. Out of control, the car went into the south ditch, then back across the road where it struck a tree on the north side.

The driver and a passenger, Susan Henderson, 17, of West Guilford, were taken to Haliburton Hospital with cuts and bruises. Damage was estimated at some \$1,000.

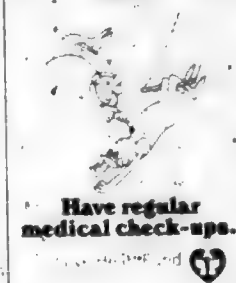

Investigation by Provincial Constable Boyd Jarvis.

Brass bands to compete at Lindsay

Bands from throughout Ontario will participate in a specialized event of the Senior Drum Corps competition entitled 'Rhapsody in Brass '76' being held at the Lindsay Central Exhibition Grounds, Saturday, July 17 at 7:30 p.m. Presented by Lindsay's Kawartha Cavaliers, the event will also include the 'Royals' of Guelph, 'Grenadier-Yarmon' Kingston, and 'The Imperial - Knights' of Sudbury, all in the R.C.A. Sr. A Division, with four other bands competing for the southern Ontario Jr. C championship. The Kawartha Cavaliers, hosts for this fine program, will also perform with their unique precision marching ability and extraordinary musical arrangements and promises that 'Rhapsody in Brass '76' will provide excellent entertainment for everyone's enjoyment.

Advance tickets are now on sale with admission \$2.50, children under 12 \$1.00 and, of course, Free Parking. Everyone's invited!

Perform a death-defying act.

Have regular medical check-ups.

One-man show

Haliburton County had the pleasure of viewing the paintings of one of this country's most promising artists, David Bierk, at the Haliburton Highlands Senior Secondary School, these past two weeks. Born in Appleton, Minnesota in 1944, artist David Bierk moved to Peterborough in 1972 where he opened an art gallery known as 'ART-SPACE' in 1974. Mr. Bierk received his M.A. in Painting/Photography at

California State University. He is presently an instructor in the Fine Arts Dept. of St. Sanford Fleming College in Peterborough and has received Canada Council grants. Mr. Bierk is presently on his fourth one-man show, in Haliburton, sponsored by the Ontario Arts Council. 'Artists With their work Programme' His previous three one-man shows were in Redding Art Museum, Redding, Califor-

nia, California State University, Arcata, California and MacKenzie Gallery, Trent University, Peterborough. David has also participated in many Group Shows since 1969. This Wednesday, July 14th, the Federal Government will be releasing a stamp (8 cents) designed by Mr. Bierk, (see inset bottom photo), and honouring Robert Service and his Sam McGee. The closing scene of the poem 'The Cremation of

Sam McGee' is depicted. Above, David is seen at work while his pen and ink 'wrestler' is shown, top. David Bierk's show will run until Saturday, July 17th. Mr. Bierk will be at the school on Friday, the 16th only, to answer questions of visitors. The 'ArtSpace' Gallery is located in Peterborough, at 440 Water Street, for anyone wishing to see more of David Bierk's paintings.

LOON LAKE AREA

32 acres, fronting on Burnt River, mostly wooded, sprung on property. About 500 yards from Hwy. 121. Hydro available. Could be made into a campground, access to Loon Lake. Please call MARY WOODCOCK for further information at 286-1123 or 457-2070.

ACREAGE

A scenic location, 5 1/2 acres, overlooking Little Horseshoe Lake, just 3 miles from Minden on good paved road. For further information call MARY WOODCOCK at 286-1123 or 457-2070.

TORY HILL AREA

Lovely 2 bedroom cottage on Lake Lorraine. Beautiful sand beach, well treed, large dock. Sailboat and trampoline included. All furnished except for a few personal items. Asking \$26,000. For further information call PHYLLIS MacDUFF at 286-1123 or 457-1315.

CARNARVON AREA

Lovely 2 bedroom home, large landscaped lot overlooking Hall's Lake, fronting on Hwy. 35, small stream across property with small bridge, very picturesque. Asking \$36,000.00. For further information call PHYLLIS MacDUFF at 286-1123 or 457-1315.

GOODERHAM AREA

New, 3 bedroom home, some finishing work to be done. Approximately 1 mile west of Gooderham, with 400 ft. frontage on Highway 503, nicely treed lot, walk-in full basement. For further information, please call PHYLLIS MacDUFF at 286-1123 or 457-1315.

CARNARVON AREA

24 acres, house and barn. House has 5 bedrooms, living and dining room, 3 pc. bath, full basement. Excellent barn with hydro and water. Please contact MARY WOODCOCK for more information. Phone 286-1123 or 457-2070.

QUALITY LOTS

Two excellent building lots between Haliburton and Minden on a good year round township road. Both give privacy and variety. One of the lots affords a view of the entire length of Katchewanog Lake and surrounding area. Call BOB BARNETT at 286-1123 or 754-2866, to view either lot.

o u t d o o r s

Anglers can beat those dog days

The dog days are almost here. This is a period of almost six weeks during July and August. Fish are extremely finicky feeders during the long hot days of summer.

Most of the fish become lethargic in warm waters which frequently are low in oxygen at this time of year, a condition created in part by lack of wave action.

The fish haven't stopped eating they have just revised their mealtimes. Most successful anglers alter their techniques and schedules.

If you are looking for pike, be on the lake at first light and fish until mid-morning. You may very well log a limit by that time.

Hit them again after supper, especially the wall-eyes. They will forage the shorelines and gravel bars after sunset.

As sound travels a long way underwater, don't bang things around in the boat. It is this noise that will make successful fishing impossible.

Lures for dog days. Once you've located bass in summer, the following suggestions about

lures and how to fish them may help you put bass on the stringer.

In muddy or otherwise stained water, try lures that give off a lot of vibrations - large-bladed spinners, sonic plugs in bright finishes. In clear water and bright light, choose more imitative lures in finishes that resemble the area's natural baitfish. Use small lures with tight tackle, and don't fail to experiment with both slow and fast retrieves. In hot weather be sure to try vertical jigging with a spoon or deadhead, especially in areas of submerged timber. And especially if the fish won't respond to quickly moved crankbaits.

If nothing seems to work, try this change-of-pace tactic. Rig up a high-floater plastic worm with a keel lead or a cone sinker stopped by a swivel about 12 inches above the worm. Troll this worm setup very slowly, bouncing bottom, along submerged channels or other probable routes used by largemouths. And finally, try fishing those lures at night.

HOW FAST ARE FISH?

When you consider the fact that water is some 700 times more resistant than air, and the fastest a human can run is about 20 mph, you have to admire the speed of these sport fish:

Sailfish.....70, Swordfish.....60, Wahoo...37,
Tarpon...35, Salmon...30, Dogfish...30,
Bonefish...22(spurts to 40), Mako...35,
Largemouth bass...12, Northern Pike...20,
Crappie...10, Channel Catfish...11, Eel...
7½, Bluegill...1½ and Yellow Perch...10.

IN MEMORIAM

In loving memory of husband and father, Mr. Gordon B. Precor who passed away July 13, 1975.

In tears we saw you slipping, We watched you fade away, Our hearts were almost broken, You fought so hard to stay.

Your resting place we visit often And place our flowers with care, But no one knows the heartache When we walk away and leave you there, Lovingly remembered and sadly missed by wife Chris, children and grandchildren.

C.N.E. to feature Kate Smith

Kate Smith, a living legend in the world of music, will be the guest artist at a unique once-in-a-lifetime 'Musical Salute to the American Bicentennial' to be held at the Canadian National Exhibition in Toronto, on August 23.

The universally beloved lady with the big heart and the big voice will join the Massed Bands of Her Majesty's Royal Marines and the Bicentennial Band and Chorus of the United States Armed Forces in a tribute to the music of America on the occasion of the United States Bicentennial.

This will be the first-ever appearance in North America of the world famous Massed Bands of Her Majesty's Royal Marines...the renowned Commandos of the British Navy. They are

200 of Britain's finest military musicians and usually perform only on Royal and state occasions.

The 65-piece United States Bicentennial Band and the 24-voice Bicentennial Chorus are the cream of America's military bands, featuring the finest performers of the United States Army, Air Force, Navy and Marines.

The musical salute will highlight the work of some of America's most renowned composers...Stephen Foster, Morton Gould, John Philip Sousa and Leroy Anderson. For further information on this musical spectacular, write to Canadian National Exhibition, Exhibition Place, Toronto, Ont. M6K 3C3.
